Leibern R. Vicente

Bachelor of Science in Information Technology

09922387248 | 955 Barangka Drive Mandaluyong City | leivcnt01@gmail.com

Driven by dedication and commitment to achieving project milestones through clear communication and active listening. Highly organized and detail-oriented commitment to task management and ensuring consistent on-time delivery. I thrive in collaborative settings, where I contribute positively as a team player to reach shared objectives as a proactive student leader with extensive experience in liaison and stakeholder management. Proven ability to bridge communication gaps between organizations and diverse groups of people. Skilled at managing sensitive information, resolving conflicts, and coordinating large-scale projects to meet organizational objectives.

WORK EXPERIENCE

CMCSA (City of Mandaluyong Collegiate Scholarship Association)

2025 - Present

Head of Liaison Committee

- Established and executed operational processes for the entire scholarship program, ensuring compliance, equitable application review, and timely fund disbursement to recipients.
- Spearheaded the successful planning and setup of Seminars for scholarship members and external professionals, consistently meeting attendance goals.
- Led a cross-functional team of students volunteers to execute large-scale orientation events, utilizing project management principles to meet strict deadlines.

Rizal Technological University (Institute of Computer Studies Office)

August 2025 - October 2025

Student Assistant

- Maintained a database system using PHP and MS Access to organize and track student capstone projects, improving data retrieval speed for faculty.
- Leveraged MS Excel to organize departmental records and generate reports for office administration.
- Managed the tracking and auditing of office equipment and laboratory assets, ensuring 100% accuracy in inventory logs.
- Streamlined the "Receiving and Outgoing" paper flow, ensuring all official communications were logged, digitized, and routed to the correct departments without delay.

Value Care Health Systems, Inc. (ValuCare)

February 2026 - April 2026

IT Support

- Provided IT hardware and technical support for office laptops, printers, and other essential equipment.
- Performed hardware maintenance, troubleshooting, and repairs to minimize downtime and maintain operational continuity.
- Configured static IP addresses and network settings to improve connectivity and reduce recurring network connection issues.
- Installed and configured printer drivers and network-enabled devices to support smooth office operations.
- Diagnosed a range of technical issues, including display problems, power management errors, software faults, and device connectivity issues.
- Resolved hardware-related problems through firmware updates, driver updates, system configuration, and recalibration.
- Conducted step-by-step diagnostics before recommending hardware replacements, helping reduce unnecessary costs and resource usage.
- Managed and prioritized IT help desk tickets, addressing urgent technical issues while maintaining routine system updates and long-term projects.
- Provided technical support and guidance to non-technical staff, communicating complex IT concepts clearly and professionally.
- Supported multiple departments while maintaining a strong focus on user satisfaction, timely issue resolution, and service quality.
- Applied preventive maintenance and standardized troubleshooting procedures to improve system reliability and reduce recurring issues.
- Gained practical experience in IT infrastructure, hardware support, network troubleshooting, and technical customer service.
